

# Directory of Free Internet Marketing Tools

---

[TheInternetMarketingResourceGuide.com](http://TheInternetMarketingResourceGuide.com)

## Introduction

This Directory is a scaled back version of our premium Directory of [Free Internet Marketing Tools](#). This Directory contains over 250 free tools whereas the premium directory contains 900 free tools and resources. The premium directory contains the best free tools available online and is believed to be the largest collection of free Internet marketing tools available anywhere. Having this many powerful and free tools at your fingertips will save you countless hours and money.

The Internet is the most cost efficient way to market your business but many small businesses still think the costs of online marketing are too high. This is where they are wrong. It is possible to do just about anything online for free. You can get a free website or blog with videos, pictures, presentations, secure payment processing and an email marketing program – all for free.

If you have a hobby you passionate about or something that you are extremely knowledgeable about it is easy to set up a free blog about your hobby and monetize your knowledge and passion. What a great way to help pay for your hobby!

There is no shortage of paid products and services available. Some of them are very, very good but free tools are all most people will ever need. Some paid tools automate or combine many tasks into one program which is a tremendous time saver but many paid products are nothing more than “branded” (a catchy name and fancy interface) free tools.

If these tools are so powerful, why are they available for free? Because many of the smartest, most successful Internet marketers offer free tools and resources to illustrate their knowledge in hopes you will join their coaching clubs. These coaching clubs are generally only necessary for those that need extra help or those wanting to learn advanced techniques.

If you find this Directory to be helpful please consider downloading a free copy of the Toolbox of [Free Internet Marketing Tools](#) (or upgrading to the [Premium Directory of Free Internet Marketing Tools](#)).

You can also visit [TheInternetMarketingResourceGuide.com](http://TheInternetMarketingResourceGuide.com) for the best and biggest [Internet marketing directory](#) of online tools, resources and information.
